

Module 2: Single Tooth Implants – Tx Planning & Surgery

Course Title: Single Tooth Implants – Tx Planning & Surgery

Course Category: Treatment Planning & Surgical Therapy

Price: \$2,495.00 USD

CE Credits: 30

Overview: This course is designed to provide doctors with the essential information and skills needed to offer surgical implant therapy in their office. Emphasis is placed on broad knowledge of both the scientific theory and practical procedures for incisions, flap management, closures, and controlling a surgical environment. Equipment, materials and techniques used for these purposes will be discussed. The other main focus of the course is for doctors to become knowledgeable and skilled in the placement of dental implants.

Objectives:

Course objectives are for all participants to become knowledgeable in the following:

- Treatment planning & Nobel Clinician
- Anatomical Considerations & Biology
- Bone Physiology & Healing
- Proper Implant Placement in 4 Dimensions
- **Single Tooth Implant Surgery (Hands-On)**
- Multiple Tooth Implant Surgery
- **Implant Placement Using Multiple Systems (Hands-On)**
- **Immediate Implant Placement (Hands-On)**
- Implant Pharmacology
- **Stage 2 Implant Surgery & Soft Tissue Considerations (Hands-On)**
- **Suturing Techniques & Flap Design (Hands-On)**
- **Restorative Site Development (Hands-On)**

Prerequisites: The target of this class is a dentist who is looking to expand their knowledge

base in Dental Implantology with new innovations and foundational information. Ideally, the participants would have taken Module 1 (DDI), but it is not mandatory.

Schedule:

[Day 1 \(Friday\)](#)

8:00am – 8:30am Breakfast & Registration

8:30am – 10:00am Lecture

- a) Introduction to online resources available to reinforce all concepts
- b) Basic Implant Parts/Terminology
- c) Implant Design in Detail
- d) Osseointegration Process in Detail
- e) Bone Anatomy in Detail

10:00am – 10:15am Break

10:15pm – 12:00pm Hands-On Implant Placement in Bone Models

- Implant motors, surgical kits, dummy implants all supplied by Nobel
- Both Nobel Parallel CC and Nobel Active Placed into models with 4 different bone qualities

12:00pm – 1:00pm Lunch

1:00pm – 2:30pm Lecture

- a) General Treatment Planning and Patient Evaluation (Medical/Dental)
- b) General Implant Restorative Treatment Planning
- c) Implant – Abutment Connection Factors
- d) Anatomy

2:30pm – 2:45pm Break

2:45pm – 5:00pm Lecture (CONTINUED)

- a) General Treatment Planning and Patient Evaluation (Medical/Dental)
- b) General Implant Restorative Treatment Planning
- c) Implant – Abutment Connection Factors
- d) Anatomy

[Day 2 \(Saturday\)](#)

8:00am – 8:30am Breakfast & Registration

8:30am – 10:00am Lecture:

- a) Review of main points from Day 1
- b) Preparation for Surgery
- c) Flap Considerations and Design

10:00am – 10:15am Break

10:15am – 12:00pm Lecture

- a) Flap Considerations and Design (CONTINUED)
- b) Suturing Materials
- c) Suturing Techniques

12:00pm – 1:00pm Lunch

1:00pm – 2:30pm Hands-On Implant Flap with Implant Placement and Suturing

- Motors, Kits, Dummy Implants, Sutures, Instruments, Soft-Tissue Models all supplied by Nobel/Danaher

2:30pm – 2:45pm Break

2:45pm – 5:00pm Hands-On Implant Provisionals on Models with Site Development

- Provisional abutments, provisional material, hand pieces, burs all supplied by Nobel/Danaher (Cement & Screw-Retained Provisionals)

Day 3 (Sunday)

8:00am – 8:30am Breakfast & Registration

8:30am – 10:00am Lecture:

- d) Review of main points from Day 2
- e) Wound Healing
- f) Surgical Guides
- g) Stage 2 Surgery
- h) Maintenance Regimen

11:00am – 12:00pm Hands-On Stage 2 Surgery on Models

- Sutures, Instruments, Soft-Tissue Models all supplied by Nobel/Danaher

Policies:

DDI's policies are as follows:

- Registration requirements include a non-refundable deposit which can be applied for any DDI program, which will be listed in the program information. Balance of the program will be due 30 days prior to the start of the course(s).
- All other course fees are fully refundable one month before the start of that course less the non-refundable portion.
